GT2 timing pulley

Category: [Shop](#)

Availability: **estimated delivery 19.05.2022**

Code: **607**

Price: 4,30 €

(the image is symbolic)

Diameter: fi 5mm 40 teeth, fi 8mm 20 teeth

Short description

Made from high quality aluminum. It is resistant to water, rust and corrosion.

GT2 timing pulley

- fi 5mm 40 teeth
- fi 8mm 40 teeth
- Made from high quality aluminum,
- High hardness,
- Waterproof and rustproof, corrosion resistant and more durable,
- Suitable for 5mm or 8mm width belt (we have different options),
- Providing a smoother transition between belt and minimizes the risk of the belt slipping,
- GT2 timing belt pulley system especially suited for linear movement and positioning, good performance for 3D printers.
